2017 SESSIONS

# Preschool SUMMER CAMP

**Session 1:** June 6 through June 15

## Backyard Bonanza

There's lots to learn right in our own backyard!  
The first week we'll work on our "green thumbs" by planting and gardening. Who says the bigger the better? During the second week, we'll explore from a bug's eye view and learn that fun can come in small packages.

**Session 2:** June 20 through June 29

## Preschool Picassos

Do you have the next Picasso, Da Vinci, or Rembrandt living under your roof? Don't stress, let us worry about the mess that comes along with that passion. We'll use paint, chalk, markers, and more to entice the budding artist in your child.

**Session 3:** July 5 through July 13

## Bear-ly Science

Using the books from author, Frank Asch, we discover how a bear thinks! Moonbear, the main character from the books learns about the life cycle of a tadpole, echoes, shadows & rainbows to name a few. Your child will be having so much fun they'll BEARly know they are learning about science!!

**Session 4:** July 18 through July 27

## Ready, Set...Lets' Go!

How do we get from here to there? Do you prefer to travel by car, plane, boat or train? We'll talk about all the different modes of transportation. How about discussing the fastest and the slowest methods of transportation from a jumbo jet to your own two feet. The destination for this camp is FUN!!

**Session 5:** August 1 through August 10

## Fun in the Sun

Get out the sunglasses and bathing suits. We are going to be enjoying the sun and the water. Running through the sprinkler, playing in the water table and building sandcastles. We'll use paintbrushes and water to "paint" a picture on the sidewalk.

Just like our water painting, the summer won't last forever so let's enjoy it while we can!!
